THE WEST COAST of Barbados is often referred to as the "Platinum Coast" and is renowned for the clear warm waters that lap gently onto golden sands. This coast is ideal for your Caribbean vacation whether it is a family holiday or a romantic getaway. At each of the many beaches you will find the calm azure waters of the Caribbean Sea with clean coral sands, a perfect picture of a serene Caribbean paradise. Nearby attractions include the Harrison's Cave, Folkestone Marine Park and Barbados Wildlife Reserve. The bigger settlements are Holetown and Speightstown

THE SOUTH COAST of Barbados is a curious mixture of the Caribbean Sea and the Atlantic Ocean. This coast is more lively than the West Coast but calmer than the restless shores in the East. The South coast offers something for everyone - calm swimming, snorkeling over inshore reefs and tidal pools, and at the southernmost tip of the island - windsurfing. The South Coast is home to such attractions as St. Lawrence Gap, Mt. Gay Rum Distilleries, Ocean Park Aquarium and of course the capital city, Bridgetown.

On THE "Wild" EAST COAST of Barbados huge Atlantic waves crash along the shore and these beaches are better suited for walking and sunning. However there are a few good places to splash along this coast - as the waves break over rocks and reefs, small pools are formed close to shore - natural swimming pools! The area is less developed but it is famous for its natural beauty. Sights include the Andromeda Gardens, Morgan Lewis Windmill and St. John's Parish Church.
